## Medal trifecta

ALL Saints' College student Jing Quan Chong wants to be a doctor when he is older and judging by his academic results, he is well on his way.

The Leeming resident (11) was the only student in WA to win three medals in last year's University of NSW's International Competitions and Assessments (ICAS) program.

He won the medals for digital technology, mathematics and science. That haul pushed his

medal tally to 10 after taking part in the ICAS since Year 2.

The tests took place in September and Jing Quan, pictured right, was later awarded his medals at Government House.

"I look both at previous tests and also at the tests that my siblings in the past as well," he said in explaining his preparation to succeed.

"I was so surprised to win three medals."
